

Why do we care about generative models?

“What I can not create I do not understand”
-Richard Feynman

“...generative capabilities is the key to intelligence...”
-Max Welling

Why do we care about generative models?

“What I can not create I do not understand”
-Richard Feynman

“...generative capabilities is the key to intelligence...”
-Max Welling

Classification Problem:

$$p(y|x) = p(class | image)$$

$$p(x|y) = p(image | class)$$
